your vocation matters

Do you remember where you were as 1999 slipped into history...and you found yourself in the new millennium? It's now over 5000 days ago! What has happened in your life since then? For me it was in 2000 I entered a whole new phase of leadership as the new CEO at New Zealand's largest Christian Media organisation - Rhema Broadcasting Group.

I had no idea how challenging, yet remarkable and full of insights the journey would be!

*Over the 5000 days I was privileged to meet people from different walks of life, including many leaders. There were prime ministers, senators, admirals and archbishops; high profile evangelists and missionaries; from multi-millionaire moguls - 'movers and shakers' of industry and commerce, to some who were poor, marginalised or even despised by society. There were mums and dads, marrieds and singles, young and old. Each person totally unique with their own story to tell. **I saw that when the pressure was on and people applied sound leadership principles to their circumstances there were huge leaps forward and genuine breakthroughs.***

*I am passionate to share the key principles I learnt along the way which can **help both personal development and organisational advancement**. So at Endeavour Group we have designed a special workshop called '5000HOURS'. It's particularly for anyone who is in, or about to take up, some form of leadership role. It's best for those who've completed at least 5000 hours (two and a half years of work time) but anyone may apply. It's an opportunity to gain valuable leadership information and inspiration.*

We are delighted to have guest speakers, who'll bring sound wisdom and knowledge from their many years of leadership. For optimum learning effectiveness, we have limited this special workshop to a maximum of just 12 participants.

I do hope you'll be able to join us for this special empowering event.

COURSE
INFORMATION

WHO SHOULD ATTEND?

Anyone who is a leader or is soon to be a leader and has been at work for at least 5000 hours, that's two and a half years or more on the job.

WHO WILL BE PRESENTING THE WORKSHOP?

John Fabrin will be the key presenter and facilitator; he will be joined by other experienced and accomplished CEOs, with over 40 years CEO senior leadership experience between them.

WHAT CAN YOU EXPECT?

This is not a course built on mere theory. This is experience based insight into being an effective CEO or leader, gained from years of hard work and lessons learnt from successes and failures alike.

Leadership. Learn what senior leaders have discovered on their vocational journeys. Understand the far reaching impact that you as a leader can have for good or otherwise.

Vocation. Relevant, close up and personal discussion on vocation. Learn if it is really possible to say with conviction “I was made for this job, this work, this vocation” Get answers to questions such as “Does God call us to a particular vocation?”

“How do our talents, skills, values and interests relate to our work?” “How do I know I’m on the right track?”

Values. Find out why values so powerfully impact our peace and satisfaction, and why they are so important in our day to day work.

Mentors. Do you really need one? How do you get one? What you should know about making the most of a mentor.

The Very Important Project - VIP. John Fabrin will share valuable lessons learnt as he led the Rhema Broadcasting Group on a mammoth capital fundraising project. This involved an additional \$6 million dollars, over and above the annual operating budget of circa \$8 million, to secure 20 year broadcasting licences.

RBG had never needed to raise so much money - close to \$14million - in one year.

Learn the strategy they used, what happened and how they achieved the target...with 20 mins to spare!
