**Insights on Values.** You’ll learn why values are so important to your vocational journey.

**Insights on Uniqueness.** Gain an appreciation for the contribution to the World that only you can make.

- Spiritual motivational gifts.

**You’ll learn how these can relate to different career options.**

**Activation.** We will show you how to initiate your own career action plan.

*We acknowledge that vocation can sometimes be quite mysterious. It is not always clear cut. There is no one perfect mechanism or science that can be used to prescribe exactly what you should be doing at each and every stage of your vocational path...that is why we have brought together **an excellent collection of resources to help you navigate your journey.***

*We are delighted to present WHATSNEXT – a premium 2 day workshop for young adults wanting to make real progress in their vocational journeys. Our hope and prayer is that this event will be positively life changing for all who attend.*
